WELCOME TO THE NEXT GEN BUSINESS SOFTWARE

3GVision is dedicated to providing you with industry leading 3rd Generation Business Software that will **SAVE YOU THOUSANDS** on staff resources, hardware and software ultimately delivering world class customer service whilst maximising your business profits.

HOW CAN YOUR BUSINESS BE IMPROVED?

The powerful 3G Business solution is the latest generation approach to manage all front-end and back-end processes on a single platform. Completely integrated and intuitive – 3GB CRM frees up time for your customers, automates administrative tasks, and ensures communications across your business are clear and visible to everyone.

Imagine one single easy-to-use solution that can be configured and customised by non-technical users – AND – sized for any business, large or small.

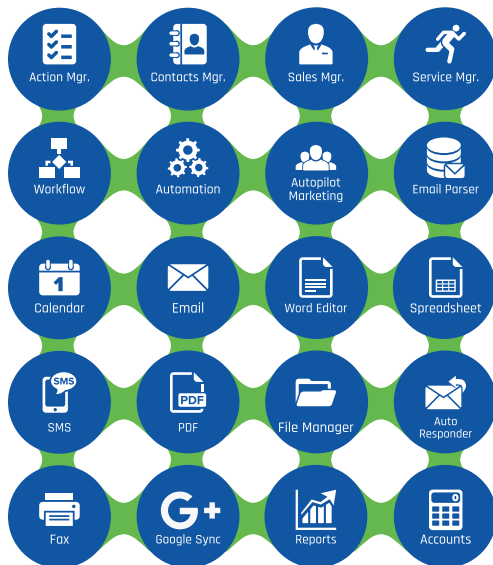

HOW DOES 3GB DELIVER REVOLUTIONARY BENEFITS?

Now that you can keep track of all your important activities and data in a single integrated environment, you can focus on revenue generating tasks – improved sales, better marketing, more productive alliances and better management. The 3GB solution is a radically different design from other applications, based on true business requirements and designed specifically for your business.

It optimises and automates processes so your businesses can maximise sales and deliver the best levels of customer service. 3GB is simple, designed with an MS Office look and feel, so you already know how to use it. It delivers the true power of your business to your market & customers.

NO NEED FOR: Outlook Email/Calendar, Word, Excel, Letter, SMS and document templates, separate lead management systems, costly web integration, reminders, document storage, multiple email accounts, other messaging systems, multiple servers and expensive integration plus much more...

**Reduce Costs + Increase Productivity
+ Increase Sales = Maximum Profit**

Client Manager - It enables you to Automatically Generate, Manage and Store ALL Client, emails, SMS, quotes, letters, documents, client data, pictures, calendar items, actions, tasks, activities, appointments, sales data, jobs/services and accounts.

Appointment / Job Manager - With Ms Outlook design and feature set, new innovative never seen before capabilities the appointment manager combined with the Appointment Template Editor will enable you to simplify and automate; Appointments, Meeting Invites and Email & SMS Reminders.

Job/Services Tracker - Provides you a full list of all jobs/services purchased, booked, re-scheduled, cancelled, no- shows, redeemed combined with job/service notes and job form management.

Workflow Manager - Manages every stage of your business processes such as; the sales process from lead to sale including the fulfilment process, greatly improving the conversion of leads. Auto Emails, Documents, Actions, Calendar Appointments and Reminders, sms... at each stage combined with pre and post- job/service Marketing.

Action Manager - Let 3GB Manage Your Staff, managing a business comes with many challenges, one being staff management. The problem is you can't manage each and every task of each staff member or can you? With the 3GB Action Management System now you can automatically remind staff what to do, when to do it, how to do it, monitor workloads and distribute work more evenly.

Sales - Process the sale of products, single and series pack job/services with product notes, sales notes, volume and loyalty discounts, promotional and gift vouchers while automatically generating client history, invoices, receipts and accounts.

Automation Engine - Most business systems have some basic form of automation but they are usually extremely limited due to relying on 3rd party apps. 3G Business comes with a full suite of 26+ Business Apps including a Word-like Editor, Outlook-like email and calendar, Excel-like spreadsheet editor plus many more that can be controlled and automated by the 3G Business System.

AutoPilot Marketing - Use 3GB AutoPilot Marketing to automate Lead Nurturing so you never waste another lead. Maximise repeat business by automating your up-sell, cross-sell and repeat purchase campaigns. Increase sales with Auto-Follow-Ups and reward your best customers via the VIP Loyalty System. 3G Business will help you get More Customers and More Sales!

Accounts Manager - 3GB Accounts automatically generates all your sales invoices and sales receipts with the ability of connecting directly to your accounting package. With End of day trading summary and the ability to manage numerous franchises you can track the accounts of one franchise or multiple franchises within 1 SINGLE SYSTEM.

Messaging - The problem with messaging is all the different messaging types (Email, Fax, SMS, Voicemail), the different ways to access them (Outlook, Gmail, Web) and the multiple accounts for each staff member. 3GB simplifies all the above; allow 3GB to manage who get what message, no more wasting time looking for this message or that attachment. Monitor and categorise every message and let 3GB save them where they belong.

Word Editor - Automate Documents with Ease! Choose from over 1000 database fields (per customer), drag and drop to 3GB Word, Fax, SMS, Email or Appointment Template Editors and automate. With an MS Word-like look and feel, you will be able to streamline and automate all your letters, contracts and quotes in no time.

Spreadsheets - Automate Spreadsheets with Ease! Create spreadsheet templates by adding data base fields directly to your spreadsheet, add excel formulas and charts and automate by generating with 1 single click or let the workflow manager create, save an email. With an Excel-like look and feel, you will be able to streamline and automate your spreadsheets with ease.

About 3G Business
