

THE 3GB BUSINESS SOLUTION

Unlock the Hidden Potential

of your Business with 3GB, a Highly Customisable Business Solution fully tailored to your industry and business niche. If you're frustrated by faxes, emails, SMS, quotes, letters, brochures, customer and product data, pictures, calendar items, activities, appointments, sales data, and accounts – join the dozens of Business Owners who love this NEW approach.

HOW CAN YOUR BUSINESS BE IMPROVED SIGNIFICANTLY?

The 3GB powerful business solution is the latest generation approach to manage all front-end and back-end processes on a single platform. Imagine one single easy-to-use solution for all customer data, actions/tasks, appointments, contacts, product information, reference documents, brochures, messaging, and sales data that can be configured and customised by non-technical users – AND – sized for any business, large or small.

WHAT DOES THIS MEAN FOR YOU – AND YOUR BUSINESS?

Completely integrated and intuitive – 3GB frees up time for management, simplifies administrative tasks, and ensures communications across your business are clear and visible to everyone. No more hunting for scraps of paper, scribbled order details, and out-of-date sales spreadsheets. No more duplicated or missed appointments, lost phone messages, or missed tax returns. No more end-of-month chaos as you try to get the accounts reconciled. It's all there with the 3GB Business Solution in a Box.

The shocking truth – published in recent reports – shows that businesses are spending more and more time on administrative overhead. Estimates show that compliance and administrative functions have grown as a portion of business revenue from an average 15 years ago of 17.7% to 22.3% today. That's nearly a quarter of

your business revenue going to pay for non-revenue generating activities. With 3GB – you can drive that level of overhead down fast, by as much as 37% in one recent study – straight to the bottom line.

HOW DOES 3GB DELIVER REVOLUTIONARY BENEFITS?

Now that you can keep track of all your important activities and data in a single integrated environment, you can focus on revenue generating tasks – improved sales, better purchases, and more productive alliances. The 3GB solution is a radically different design from other applications, based on true business requirements rather than technology platforms. It optimises processes so businesses can maximise sales, deliver the best levels of customer service, and empower staff with the right information for the right customer at the right time. 3GB is simple and configurable delivering the true power of your business to your market.

THE 3GB BUSINESS SOLUTION MANAGES ALL THESE FUNCTIONS WITH EASE

Calendar, Tasks, Activities, Appointments, Contact Management, Sales Automation, Workflow (task flows automated and monitored), Messaging (Phone, Email, Fax, SMS, VMS), Document Management (Capture, Edit, Create, & File), Products, Quotes, Orders, Invoices, Event Management, Import – Export Tools, Notes and History, Accounts, Compliance (Tax, Company, Employment), plus much more...

KEY 3G BUSINESS SOLUTION FUNCTIONS FOR YOUR BUSINESS

Contact Management – Manage All Customers, Vendors, and Prospects

Manage business-to-consumer (B2C) and business-to-business (B2B) relationships and obligations with ease. Multiple contacts, business details, addresses, telephones, emails, etc. Over 100 totally configurable fields so you can tailor your requirements exactly.

Business & Workflow Automation – Completely Intuitive and Natural Approach

Create custom events to automate sales tasks, actions and processes. Use simple wizards to automatically generate PERSONALISED Emails, Faxes, SMS, Letters and Quotes. 3GB processes are totally configurable, with the ability to add as many Status, Action, and Case Requirements as you desire.

Messaging – One Simple Platform for all Email, Faxes, SMS, and Voice Mail

3GB Messaging uniquely provides Functional and Departmental messaging and fully Unified Messaging. Using Messaging Clients and simple Wizards will deliver all the tools needed to create, send, receive, manage and store Emails, Faxes, and SMS – as well as phone records.

Marketing System – Simple, Easy-to-Use, and Startlingly Effective

3GB marketing provides drill-down and analysis across all data, including sales stage, groups, job titles, location, order type, and much more. You can customise your campaigns to send specific lists and sub-lists offers via Email, SMS, Fax, or letter, or if you wish, simply export to another system or service provider.

Company Calendar – Manage Company, Team, User, Vendor, and Customer Calendars

Through the 3GB Calendar, you can view, manage and edit all these levels of calendar. Uniquely, you can also view customers' and vendors' calendars. The Contact Management system allows viewing Historical and Future appointments that ANYONE within your organisation has booked with that customer.

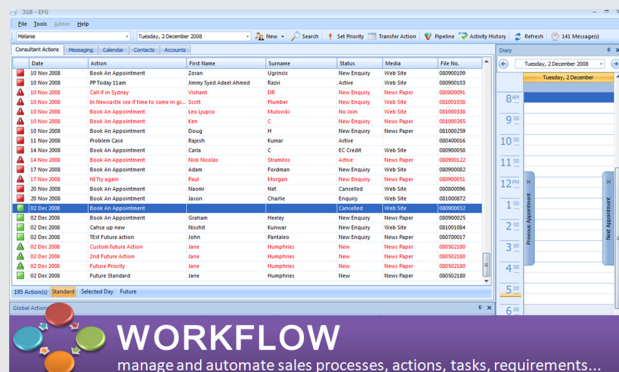

e-Docs – Straightforward Document Generation, Management, and Filing

3GB e-Docs automatically manages all documents created, auto-generated, attached, sent, and received. Importantly, it manages all received email attachments and faxes, automatically labelling, cataloguing and categorising directly into the right file. The e-Docs system manages company AND customer processes.

Account Manager - Manage Sales Revenue with Streamlined Workflow

The 3GB Account Manager sets up products, prices, discounts and taxes, and manages specific products each customer purchases. You can generate quotes and set-up payment plans, simplifying sales invoice and receipt management. Due and overdue payments ensure staff are always up to date with accounts.
